Summary

Full Stack Web Developer with internship experience in building and deploying scalable web applications through real-world projects. Proficient in frontend technologies including HTML, CSS, JavaScript, React, and Next.js, along with backend development using Node.js, Express.js, MongoDB, and Python (Flask). Skilled in developing responsive, user-friendly interfaces using Tailwind CSS and Bootstrap, and building secure REST APIs with authentication. Passionate about creating efficient, real-world solutions and continuously improving through hands-on development experience.

Skills

Frontend: HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Python, Flask

Databases: MongoDB, MySQL

Concepts: REST APIs, CRUD Operations, Responsive Design, Authentication

Tools: Git, GitHub, VS Code

Experience

- **Web Development Intern** – Completed 2 internships; developed full-stack applications using React, Node.js, Express, MongoDB; built APIs, improved performance, and enhanced UI/UX.
- *Technologies & Tools: React, Node.js, MongoDB, Git, GitHub, Vercel* — Collaborated in a team environment and followed best coding practices.

Projects

Student Management System | *Full Stack Web Application*

January 2026 – February 2026

- Developed a full-stack Student Management System to manage student records efficiently.
- Implemented CRUD operations with Flask backend and MongoDB integration.
- Built responsive frontend using HTML, CSS, and Bootstrap.

Full Stack Blog Application | *MERN Stack*

February 2026

- Built a full-stack blog platform with authentication and CRUD features.
- Implemented JWT-based login/signup and RESTful APIs using Node.js and Express.
- Designed responsive UI using React and Tailwind CSS.

Full Stack Authentication System | *Node.js, Express, MongoDB*

March 2026

- Developed secure authentication system with login/signup functionality.
- Implemented JWT authentication and password hashing.
- Designed protected routes and ensured secure data handling.

Certifications

- **Artificial Intelligence & Cloud Computing Certifications** – IBM
- **AI Training Program** – TCS iON

Education

B.C.A. Computer Science

Graduated: 2025

Mahatma Jyotiba Phule Rohilkhand University, Bareilly
